PRESIDENTS REPORT FROM JOHN FREEMAN

Thanks to all those who came along to our monthly get together in April. This was a training/education night on varieties even though there was not many in attendance those who did come got something out of the night.

The subjects on the agenda were varieties, we covered greens, blues, Australian goldenface, English yellowface, both these in normal, opaline and cinnamon, whitecaps, Opaline and clearbodies. We had birds on display for all these varieties going through such things as breeding, pairing, identifying and showing, this was interesting and a bit of fun was had as well.

The Melton club had their Diploma show last weekend. I believe the birds were of a high standard with the major awards going to Ian Hunter and Mike Huth well done to these 2 gentlemen on

presenting very good birds.

The next Championship Shield Sunday the 16th May is the Young Bird Shield (green rings), our selection will be Saturday 8th May.

John Freeman

President Nepean Budgerigar Society

There are plenty of club shows coming up for this year all around Victoria, for adult, young birds and ubc's. These are usually well run, great events to attend. It's a really good opportunity to put your birds forward to see how they are going, as well as chance to meet & get to know other bird enthusiasts and have a chat. You never know what tip you just may pick up from an experienced breeder! Even if you have no birds to enter, you are still welcome to go along.

There is a schedule of the years shows in this newsletter. **BUT** please note that **all** shows are still subject to confirmation due to Covid restrictions, and other factors. This could be due the possibility of unexpected tighter restrictions being put in place, or because a club may not have the extra manpower to ensure the Covid safe plan can be adhered too. (Don't forget there are a large portion of our budgie community in the high-risk category)

We can confirm that the Bendigo Club has rescheduled their show to Saturday 12th June. Show details have will be emailed to everyone, and show entry sheets have been sent this year too. If any of our new members need a hand to fill these out, please shout out to one of the exec committee.

**Nepean 2021 AGM
Tuesday 16th June**

After a year full of restrictions for 2020, Nepean unfortunately was not able to hold it's annual AGM. So after 2 years, we will be holding our AGM on Tuesday 16th June, 8pm at our usual Dingley venue. As always, all positions are stood down and available for re-election.

Executive positions available are: President, Secretary and Treasurer.

Mim as current Secretary, and Rohan as current Treasurer will not be seeking re-election, so we will be looking for these positions to be filled by other members. If you would like to ask any questions about these positions, please feel free to give Mim a call on 0421 085 974. Please consider putting your hand up, our club can only run and operate on the support and help of its members.

Moths and Birds – By John Freeman

A subject I would like to touch on is Moths yes that's right Moths, these pesky little critters can cause quite a bit of unrest and poor hygiene for birds and breeders as well. These Moths seem to come in waves from the warmer climates and breed very quickly. These often come in the seed we purchase and will then breed in the seed in cages waste trays and anywhere there is food for them including our seed bins or hoppers if they can gain access, they can even get up in the mason jar feeders where they breed. When this happens, they produce Larvae which spin webs these webs can clog up the feeders so even though when we check them visually the birds appear to have plenty of seed but the larvae have a damming effect which robs the birds or the young they are feeding from having seed which can cause starvation.

So how do we tell if have these tiny Moths and larvae?

---you will notice them flying around your bird room or aviary or just sitting on the walls or roof

---tiny silk lines or webs/larvae will start to appear mainly from the roof or corners of cages

---very small brown cocoons can appear in seed and sometimes in nest boxes

---the larvae will foul up the seed

So how do we deal with them ?

--firstly if you have them in your aviary a pair of quails will greatly help keep the numbers down

--use Fossil shell flour (food grade diatomaceous earth) available from Avian Vitality, this is a powder which can be mixed with seed and paced in the nest box this should keep them at bay

--good old fashion moth balls

-- moth paper (sticky paper with attractant which catches the moths) a swatter works well if you can see them

-- most of all keep the room clean remove waste food they eat, if you have them a big clean out with disinfectant and Glen 20 surface spray is needed as well.

Hope this was of help for some!

Monthly Chuckle

"An older lady gets pulled over for speeding"... Older Woman: Is there a problem, officer?

Officer: Ma'am, you were speeding. Older Woman: Oh, I see.

Officer: Can I see your license please? Older Woman: I'd give it to you but I don't have one.

Officer: Don't have one? Older Woman: Lost it, 4 years ago for drunk driving.

Officer: I see...Can I see your vehicle registration papers please. Older Woman: I can't do that.

Officer: Why not? Older Woman: I stole this car.

Officer: Stole it Older Woman: Yes, and I killed and hacked up the owner.

Officer: You what? Older Woman: His body parts are in plastic bags in the trunk if you want to see

The Officer looks at the woman and slowly backs away to his car and calls for back up. Within minutes 5 police cars circle the car. A senior officer slowly approaches the car, clasping his half drawn gun.

Officer 2: Ma'am, could you step out of your vehicle please! The woman steps out of her vehicle.

Older woman: Is there e a problem sir?

Officer 2: One of my officers told me that you have stolen this car and murdered the owner.

Older Woman: Murdered the owner? Officer 2: Yes, could you please open the trunk of your car, please.

The woman opens the trunk, revealing nothing but an empty trunk. Officer 2: Is this your car, ma'am?

Older Woman: Yes, here are the registration papers. The officer is quite stunned.

Officer 2: One of my officers claims that you do not have a driving license.

The woman digs into her handbag and pulls out a clutch purse and hands it to the officer.

The officer examines the license. He looks quite puzzled.

Officer 2: Thank you ma'am, one of my officers told me you didn't have a license, that you stole this car, and that you murdered and hacked up the owner.

Older Woman: Bet the liar told you I was speeding, too.
